

Design Phase Activities

Design ID	Design Activity	Description	Responsible Person
DP-01	System Design	Define the overall architecture and workflow of the project.	Leela krishna
DP-02	Dataset Design	Select and organize the agricultural crop production dataset.	Mohith Reddy
DP-03	Data Preprocessing Design	Plan methods for handling missing values, duplicates, and inconsistent data.	Mohith Reddy
DP-04	Analysis Design	Design state-wise, crop-wise, and year-wise analysis methods.	Leela Krishna
DP-05	Visualization Design	Plan charts, graphs, and dashboards for presenting results.	Mohith Reddy
DP-06	Report Design	Design the structure of the project report and documentation.	Leela Krishna
DP-07	Presentation Design	Prepare the PowerPoint layout and presentation flow.	Leela Krishna & Mohith Reddy

Module Design

Module ID	Module Name	Description
MD-01	Data Collection	Collect agricultural crop production data from reliable sources.
MD-02	Data Preprocessing	Clean, filter, and prepare the dataset for analysis.
MD-03	Exploratory Data Analysis	Analyze crop production by state, crop, season, and year.
MD-04	Data Visualization	Create bar charts, line graphs, pie charts, and heatmaps.
MD-05	Insight Generation	Identify trends, high-production states, and major crops.
MD-06	Report Generation	Prepare the final report and presentation.
